ivalua

**Celebrating Asia Pacific's Most Impressive Procurement Initiatives
Announcing the Asia Pacific Procurement Awards 2023 Winners**

Micron Technology, GEP, and NutriAsia proudly feature among the distinguished list of companies that drive innovation and create significant value for their organisations.

London, November 9, 2023: We are delighted to announce and congratulate the winners of the [Asia Pacific Procurement Awards 2023](#).

These awards serve as a platform for industry innovators and forward-thinkers, enabling them to elevate their profile and showcase their exceptional regional accomplishments. From driving Environmental, Social, and Governance (ESG) improvements to providing invaluable insights into supply chain risk, we honour those who challenge convention, adding sustainable value to their organisations.

Our esteemed judging panel, comprising leading procurement experts and senior representatives from organisations such as Asian Development Bank, Indosat, Accenture, and Tata Communications, conducted a rigorous evaluation of each entry. Their thorough evaluation process guaranteed that only the most qualified finalists and winners would be acknowledged.

The 2023 award winners were announced and celebrated live in Singapore on November 9 at the Swissôtel The Stamford. This event was expertly hosted by TV broadcaster and radio host, Michelle Martin. It marked the conclusion of the Asia Pacific Procurement Congress, fostering an atmosphere of inspiration, jubilation and recognition within the regional community.

Once again, we extend our sincere congratulations to all the winners and finalists.

Entries are now open for the [World Procurement Awards 2024](#), the world's most prestigious procurement accolade. Register early to secure your attendance.
